Simple Time Recording

Record all daily activities and track time spent on shared and private projects. Track billable, non-billable and special time.

Powerful Time Analytics

Make informed decisions based on project allocation, control budgets and maintenance contracts. Control billable hours, project allocation, additional expenses and track travel to clients.

Online Timesheets Approval

Grant your customers access into relevant projects and allow electronic timesheet approvals.

Easy invoicing and Payroll integration

Include recorded time into your invoices for confident billing. Export recorded time into selected payroll applications for salaries.

All Plans Include
